### 4-H Electric Program Sparks Future Scientists

Somewhere in this great state may be a teen-ager who day will build a vital contribution to the nation's progress in the field of electricity and electronics. The opportunity lies in the 4-H Electric Program conducted by the Cooperative Extension Service for 4-H Club members between the ages of 10 and 21.

It is highly probable that many 4-Hers participating in the project will find a future career in electrical and electronic fields. They will help to lessen today's urgent need for more and better electricians.

4-Hers Rewarded

Hundreds of 4-Hers already have achieved action while recognition for their inventiveness and application of electrical energy to both farm and home use. In addition, thousands have been rewarded by the Westinghouse Educational Foundation, which has supported the 4-H Electric Program for almost a quarter of a century.

**PEANUT DOLLAR IS PLANNED TO DOUBLE DUTY**

Peanut producers of Coffee County can be sure that the funds they contributed last fall toward a larger national program to double the peanut dollar, according to E. C. Brooks, a director of the Alabama Peanut Producers Association from Coffee county.

Mr. Brooks, a peanut farmer himself, lives near New Brockton, explained that a number of leading national advertisers have joined the Alabama growers in promoting peanut butter along with their own products, thus enormously increasing the size of the program at no extra cost to Alabama peanut producers, and peanut butter consumption this year is showing an important increase.

Coffee county growers for the past two years have contributed \$1 per ton of peanuts to a fund aimed at enlarging the national market for peanuts grown here. Last June a promotional campaign was launched to persuade more large-scale manufacturers of peanut products to buy in Alabama, and to help these manufacturers sell more of their products to consumers.

**TRANSMISSION ON TRACTOR IS FORD ADVANCE**

A totally new type of tractor transmission which can be shifted "on the go" without use of a clutch pedal and which has 10 forward and two reverse speeds is now available in Ford tractors, according to W. E. Windham, tractor and implement dealer at Redmond-Windham Tractor Company in Elba.

"In my opinion, this transmission, called the Ford 'Select-O-Speed' is the greatest advance in tractor operating convenience since Ford introduced the three-point rear implement linkage and the built-in hydraulic system twenty years ago," Mr. Windham said.

"With this new transmission, shifting from any gear to any other gear is a simple matter of 'dialing' the desired gear ratio with a small hand controlled lever just below the steering wheel. The tractor continues to move. There is no need to bring it to a stop while the shift is being made," Mr. Windham said.

Mr. Windham explained that a "Select-O-Speed" Ford tractor employs a solid gear-drive at all times so that the tractor's power is instantly available at the rear wheels. Thus, the "Select-O-Speed" enables an operator to do up to 25 per cent more work and at the same time improves economy as the result of being able to select exactly the right gear ratio and speed for every job the tractor is doing. "In hard spots, the operator will simply flip the selector lever to the rear which will 'pull through' and where the going is easy, he can up-shift for faster, more economical operation. There is no time lost while the shifts are being made."

This transmission, Mr. Windham said, uses the planetary gear drive principles made famous in 15 million Model T cars. Instead of applying bands and clutches to gear pedals, however, these are now actuated by hydraulic power controlled by the one hand lever. The ten forward speeds have been engineered to overlap so that an operator can keep his tractor engine running at the most efficient throttle setting while choosing a ground speed ranging from about one half mile an hour to more than 18 mph. The reverse speeds of 1.8 mph or over 5 mph also give versatility for all kinds of jobs.

## Memories Of Elba Flood Still Vivid On 30th Anniversary

The above photo was snapped from the air just 30 years ago after Elba had been more than three days of water. It was the day previous that water began to rise in the streets

with a suddenness that was almost unbelievable. Like plant waves of a rising tide, columns could be written about the tales of heroism and unending cooperation of the people in face of their worst disaster. Water rose steadily until Friday about 5 a.m., then began to recede gradually, but it was not until late Saturday that evacuation of the city could begin.

### Elba Hi Graduate On Duty In Italy

Army Sergeant First Class James H. Brown, 26, whose wife Betty lives at 114 Fleming St., Opp, Ala., participated with the 79th Artillery in a joint Italian-American field maneuver, "Blue Moon," conducted in Italy February 17-25.

The units involved in the exercise make up a part of the NATO forces in Italy. Sgt. Brown, who arrived overseas in February 1958, is a section chief in the Artillery's Battery A in Vincenza.

The 1953 Elba High School graduate worked for the Veterans Auto Parts Co. in Elba before entering the Army in November 1949.

His parents, Mr. and Mrs. Dick Brown, live in Elba.

few County, Alabama, on the 7th day of April, 1959, for the purpose of determining whether or not a special tax shall be levied and collected annually at a uniform rate of thirty cents on each one hundred dollars worth of taxable property in said County; said tax to be levied for a period of 20 years beginning October 1, 1964, and to be collected for a period of 20 years beginning October 1, 1964; the tax to be levied and collected for public school purposes within said County; and said levy, if authorized, not to operate to increase any present special county three-mill school tax levy in said County, but to be in lieu thereof.

**SIGNED:**  
H. D. TILLMAN  
Sheriff of  
Coffee County, Alabama.  
2-26, 3-5, 3-12, 3-19

Notice is hereby given that letters of administration upon the estate of Rex T. J. Marler, deceased, were issued to the undersigned on 19 February 1959 by the Probate Court of Coffee County, Alabama, Elba Division. All persons having claims against the estate are required to present the same within the time allowed by law or the same will be barred.

This the 18th day of February, 1959.  
MRS. MAUDE N. MARLER  
As Administratrix  
3-5, 3-12, 3-19

### LIBERTY LIFE CAPITAL STOCK IS INCREASED

Stockholders of Liberty National Life Insurance Company voted at their annual meeting to increase the Company's capital from \$6 million to 7 and one-half million.

President Frank P. Sanford said that the move would further strengthen the company's capital structure. The additional \$1 and one-half million will be transferred to capital from the company's surplus and will be represented by 750,000 shares of new stock. The new stock will be distributed to stockholders on April 17, on the basis of one additional share for each four shares held. The Directors declared a dividend of 34 cents a share on the company's stock payable March 10th to stockholders of record February 27th.

In other action the stockholders elected Joseph L. Lanier of West Point, Georgia, to the company's Board of Directors. Mr. Lanier is president of West Point Manufacturing Company, and a director of numerous other corporations including First National Bank of Atlanta, First National Bank of West Point, and Continental Gin Company. The other Directors were all re-elected.

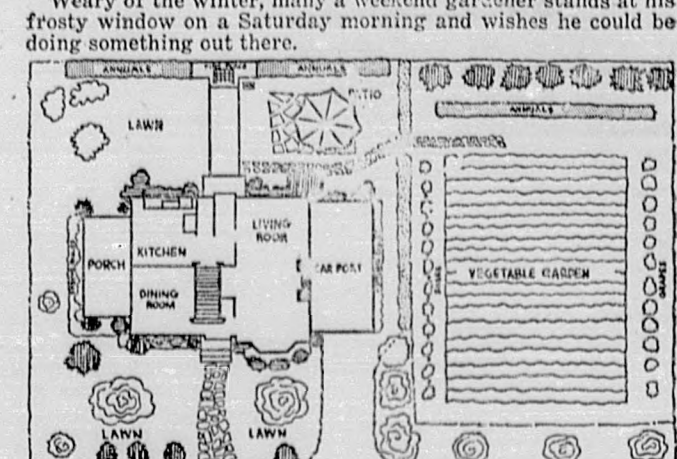

They are Leo E. Bashinsky, Elmer A. Camp Jr., Charles T. Clayton, Jack D. McSpadden, Arthur M. Mead, Frank P. Sanford, Frank P. Sanford Jr., Yetta G. Sanford, P. Page Seiber, and Frank E. Spain. Mr. Sanford's report to stockholders pointed out the company's continued growth during 1958. Insurance in force increased over \$150 million to a new high of approximately \$1 and one-half billion. Assets increased a record \$26 and one-half million to over \$362 million. More than half of this total was invested in residential mortgage loans insured or guaranteed by agencies of the Federal government.

The company continued to expand its operations. Mr. Sanford said, "increasing its field organization throughout the company's territory and establishing new district offices at Fairhope, Alabama, and at Crestview and Fort Pierce, Florida.

When you are packing sweaters for travel, fold in the sleeves and roll the sweater to prevent ridges. Also takes less space.

### GETTING THE MOST... FROM YOUR GARDEN

By Lyman D. White  
**ASSOCIATED SEED GROWERS**

Wary of the winter, many a weekend gardener stands at his frosty window on a Saturday morning and wishes he could be doing something out there.

Actually he can be doing something indoors for the garden, something very useful that will pay good dividends later. He can be making his plan. Now is the time to do it, even though the soil may be under snow and the warm days of spring still weeks away.

There are two sorts of garden plan: one for the permanent layout of the area, the other for the annual plants of the season. If the house has been built for some time, the general layout or permanent style of the garden may be already settled and accepted. But was it just happen? Too many modern gardens have a stiff, right-angled, martinet appearance merely because the contractor, as soon as the house was roofed, seeded the plot with grass and left room for a path around it. Then some young shrubs were put in, and there was the garden.

You can live with it, as so many do. Probably they are used to it and don't think much of its lack of design, but with some care and not too much work it can be vastly improved. You begin by roughing out, more or less to scale, on a sheet of paper, a ground plan of the garden as it is now. Then you look at pictures of gardens in magazines and books, you stroll about the neighborhood looking at other people's places with new interest. Next you take up your ground plan again and mark on it with a red pencil the changes you are going to make—curving a border here, rounding a corner there, or changing the shrubbery so as to get a pleasing view from the house. You may then decide that half of the changes will be enough for this spring, so that you won't be running the risk of a crack in the back.

In making this layout, avoid planning a bed or border close to trees. Apart from the shade, they cast, their roots forage far and wide for plant food and water. If you make a bed close to the house, be sure that rain water will not be dripping onto it from the eaves. It is often a convenience to have vegetables and herbs near the kitchen door, provided a site is full sunlight is available.

The next step is to decide what plants you would like to grow this year, and how best to fit them into the plan. With flowers, you will consider the different colors so as to get pleasing combinations, the different heights to which the plants grow so that some will not smother others, and the different times to blooming so that there will be a succession of flowers all through the season and not borders that are merely herbaceous part of the time.

So also with your vegetables. Some varieties are earlier than others and you plan accordingly. You make weekly sowings of a little at a time, instead of a whole row, so that you will have enough always but never a glut which can't be used and will leave blank rows. Low growing plants such as lettuce you should have in front, intermediate plants such as beans in the middle, and corn, if you have room for it, at the back.

It really is no trouble to make such a plan; in fact, it is a pleasant little job to do before the season begins. Not only will it help you to have a better, more efficient garden, but also it will save money by guiding you to buy no more than what you need and can use. It will be used to take to a nursery, the medical bill for the many calls physicians had to make and the large percentage of patients who unfortunately never did recover.

It is true that certain medicines, because of costly ingredients and expensive research seem highly priced. But now your physician makes fewer calls, you have much less sickness time, and more lives are being saved. If you are ever concerned about the cost of any prescription, we will be glad to show you our system for pricing them fairly.

### Tractor Shifts On-The-Go

Two great advantages for tractor operators are to be found in Ford's new Select-O-Speed transmission. First is operator convenience. Using only the small selector lever shown in inset, the tractor operator can shift to or through any of ten forward and two reverse gears without stopping and without using a clutch pedal. Second advantage is the greater efficiency and economy resulting from easy selection of exactly the right gear for every job. The local Ford tractor and implement dealer invites your inspection of the Ford Select-O-Speed transmission in gold demonstration tractor now on display.

"FOLLY CONSISTS OF DRAWING FALSE CONCLUSIONS"

Very few people realize how great a value modern prescriptions really are. Older folks know, because they remember how long it used to take to cure an illness, the medical bill for the many calls physicians had to make and the large percentage of patients who unfortunately never did recover.

It is true that certain medicines, because of costly ingredients and expensive research seem highly priced. But now your physician makes fewer calls, you have much less sickness time, and more lives are being saved. If you are ever concerned about the cost of any prescription, we will be glad to show you our system for pricing them fairly.

## Sunday is a Special Day

**THE CHURCH FOR ALL  
ALL FOR THE CHURCH**  
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

**Sunday is a special day for Sheila. She likes to go to church.**  
For one thing, the church is beautiful. Sheila likes to look at the soft light filtering through the colored glass windows. She likes the delicate scent of the beautiful flowers and the majestic tones of the organ. She likes to sing, too, and she knows several hymns "all the way through," even without the hymnal to guide her.

She particularly likes this season because she knows that Palm Sunday is a time for special rejoicing in the Church.

Sheila feels the way she does because her parents have taught her that going to church is a privilege and a joy. Is Sunday just another day for your child, or is it—as it is for Sheila—a special day?

**Tough-built Chevy truck bulls its way deep into the woods for mammoth loads**

This big Series 60 Chevy bulls its way as far as 8 miles into the Louisiana woods, fights over ruts and jagged stumps... then grinds back out with towering loads of logs! The Sabine Lumber Company attests to the truck's ability to take it: "Chevrolet makes the best truck for our type of operation."

Out where a truck is known for the beating it can take, Chevy's making friends fast. Truckers like the way these toughies hold up; the way they wade right in, take their lumps, yet stay in shape. Today, it's grit that Chevy's showing the trucking industry. Real toughness that pays off in job-after-job dependability... in ability to get work done at least expense. You can match Chevy muscle against any tough light-, medium- or heavy-duty job and know you've got it beat!

Your Chevrolet dealer's ready right now to meet your special work requirements. Stop by and see him soon.

**No job's too tough for a Chevrolet truck!**

PHONE TW 7-2976

### MARRIAGE ANNOUNCED

Mr. and Mrs. James Colquett of Elba, announce the marriage of their daughter, Rebecca Brown, above, to Charles P. Hayes III, son of Mr. and Mrs. Charles P. Hayes Jr., also of Elba.

The marriage took place Oct. 4 in the home of the Honorable James R. Lee of Prattville.

Rebecca is the granddaughter of Mrs. Joe J. Handley and the late Mr. Handley and also, of the late Mr. and Mrs. James Colquett of Prattville. She will continue her studies at Troy State College where she is a

Junior in Elementary Education.

### Better Community Is Three-In-One Study Club Subject

The Three In One Study Club held its February meeting in the home of Mrs. P. O. Mathis with Mrs. James English and Mrs. Stokes Haire as co-hostesses. The president, Mrs. Sam Sawyer presided over the business meeting.

The devotional was given by Mrs. N. B. Cresswell and Miss Lillian Rowe gave an interesting talk entitled "Can We Have Peace in Our Times?"

The hostesses served twenty three members.

The home of Mrs. C. E. Dorsey Jr. was the setting for the March meeting of the Club. Mrs. N. B. Cresswell and Mrs. Price Ringo were also hostesses.

Mrs. Stokes Haire presented an inspirational program on the topic "Let's Build A Better Community" and Mrs. Murray Seay gave the devotional.

A salad plate was served to the 20 members present.

### Third Birthday Is Celebrated By Alice Brunson

Wearing a pink velvet dress with an elongated waist, accented by an ornate sash, little Miss Alice Brunson, daughter of Lister and Carolyn Brunson, greeted the guests who came to her birthday party held last Wednesday, March 11.

Alice's third festive occasion was celebrated with games, cartoon movies and diminutive Easter baskets given as favors.

The refreshment table held the attention of all the guests. In the center was a lovely doll cake whose beautiful skirt was formed by three of pastel pink icing. The guests were served

individual cakes tied in white and decorated with a small doll face on a toothpick. Ice cream and punch were served in pretty party plates.

### Visits Grandparents For Third Birthday Party

Master Charles W. Brown Jr., celebrated his third birthday at the home of his maternal grandparents, Mr. and Mrs. Harold English, on Saturday morning, Mar. 14, at ten o'clock. Charles is the son of Mr. and Mrs. Charles Brown Sr. of Tampa, Florida.

The spacious front lawn, gaily decorated with clusters of balloons tied to the pine trees, was a perfect place for the members of the hollyhock set. Games and songs were enjoyed by the youngsters.

Highlight of the morning was the arrival of the cake which carried out a cowboy theme with Indians and horses racing across the top. Caps, whistles and party favors completed the day.

Attending were: Tim and Beth Byrd, Ann English, Alice Brunson, Bill Riley, Courtney Cannon and Steve, Barbara and Gordon Brown of Enterprise, Greg Brunson, Phil English, Will Brunson, Tommy Brown, Babe Bruce, Joy and Darlene Hill.

### Easter Theme Is Marked At Elba Bridge Club

The Elba Bridge Club met Tuesday at the home of Mrs. Drexel Cook, who carried out an Easter theme in her decorations. The snowy white bridge cloths were centered with nests of "grass" on which stood a large stopper rabbit.

At each place a small, perky little chicken who had ventured from the nest. These were given as favors.

On the piano stood two large crystal Easter baskets filled with beautifully tinted eggs. Yellow, the accepted color for this season, was found in the large arrangement of chrysanthemums that graced the mantel.

High score prize was won by Mrs. Bonneau Rowe, a guest. Bingo prize was won by Mrs. Mace Cook of Enterprise.

The club will meet next with Mrs. Mace Cook at her home here in Elba.

### Personals

Mr. Fred Harper Jr., spent the AEA holidays at the coast.

Mrs. Fred Harper Sr., and Mrs. M. J. Lee spent last week in Augusta, Ga., with Mr. and Mrs. Will Harper and Mr. and Mrs. Richard Norman.

Mr. Marion Brunson, Mr. Sam Casey and Mr. Elmer Taylor attended a state sponsored meeting on "Testing and Guid-

dance" held in Montgomery last week. Some 250 educators were present.

Mr. and Mrs. Jim Vincent spent AEA holidays at Altmore with her parents, Mr. and Mrs. Clyde Turner.

Mr. and Mrs. Tom Beale have returned from a visit to Russellville, Ala., where they visited Mr. and Mrs. Tom Beale Sr. They were accompanied by Tommy and Jamie.

Mr. Marion Brunson and Mr. Sam Casey attended the meetings of the Alabama Education Association in Birmingham.

Mrs. John Garrett has returned from a visit to her daughter, Miss Jeanette Garrett in Birmingham.

Mr. and Mrs. Will Kendrick and Mr. and Mrs. J. A. Boutwell spent the weekend in Bay Minette with Mr. and Mrs. R. H. Tubert.

Mr. and Mrs. Gardner Clark spent the weekend in Birmingham with Mr. Charles Clark and family.

Miss Ann Cannon, daughter of Mr. and Mrs. Gerald Cannon, is visiting relatives in Birmingham.

An old card table, with the top replaced by a plastic screen, makes an excellent drying rack for sweaters, socks and dollies.

Use a piece of net to reinforce large holes when darning. It provides a good base and prevents puckering.

## Through the Keyhole

BY MRS. ROBERT CANNON

SPRING seems to be officially in the air, what with Miss Zedie Rowe's Azalea bush bursting into flame. Mac Bryson's wild plum being a thing of beauty and the AEA holidays being behind us. We look forward to seeing Loretta Sawyer in her spring hats, the dresses Louise Cooper will create for her youngest and the coats of fresh paint that will brighten the scene.

WHAT MORE APPROPRIATE for spring than a bridal party? And the one tomorrow at Mrs. Oscar Vaughan's. Sr., sounds particularly pretty. The

affair will honor Barbara Smith McQuinn and with its imposing list of hostesses should be one of the loveliest of the coming season.

HOW VERY FINE to see Judge Eris Paul "up and about" again. Smiling at everyone but looking rather pale after his recent illness. Things were certainly not the same when Eris was in the hospital as he adds depth and quality to our lives. Such men should be counted among our treasures as they seem always above the petty and ordinary.

THE GIRLS had a wonderful time last week going to the capital city, eating at one of Montgomery's more exclusive restaurants and visiting all the stores. It's always nice to get a change of scenery and Carolyn Stokes, Poncey Collier and Genette Garrett did just that. It's our favorite outdoor sport.

FORMER ELBIANS are always welcome to our village and everyone enjoyed seeing Rev. and Mrs. Fred Davis of Tallapoosa, Ala. They were here last Sunday visiting the P. G. Mathis and were accompanied by daughter, Kathy. Seems impossible that Kathy is a senior in high school and a grown young lady but she is both. It was a wonderful day for everyone concerned.

Says Mr. O. S. Ivey of Webb, Alabama:

## "We're topping out our hogs a month earlier"

"Since we started using AUREOMYCIN in our hog feeds, our mortality losses have dropped at least 75%," states Mr. Ivey. "AUREOMYCIN in the feed means a better health level throughout the herd—better weight gains, more efficient feed conversion, livelier and better looking hogs."

"My pigs are now recording an average of a pound of gain for each 8 or 4 pounds of feed. The hogs top out a month or so earlier, which means a reduction in

feed costs—in fact, the elimination of a month of feeding can mean the difference between profit and loss in this business."

Many other hog raisers in the south can tell of profit experiences similar to Mr. Ivey's. If you want better health, more gain and more profits from your hogs—ask your feed manufacturer or feed dealer for hog feeds containing AUREOMYCIN. American Cyanamid Company, Agricultural Division, New York 20, N. Y.

AUREOMYCIN is American Cyanamid Company's trademark for chlortetracycline.

### —THE ELBA CLIPPER— ELECTRIC HEAT USE INCREASES IN U. S. HOMES

Aurora, Ala. —More than 1,000,000 American homes are now heated with electricity and by 1970, more than one-half of all new homes which are constructed will include electric heat.

This statement was made by Tommy Ricketts, Sales Manager for Mack Electric Supply Company, of Dothan, during the course of a special meeting on electric heat promotion held at the offices of Alabama and Covington Electric Cooperatives recently.

New Developments  
In attendance at the meetings were contractors, electricians, architects, vocational agriculture teachers, and personnel of the cooperatives.

Purpose of the meeting was to present new developments in the field of electric heat, and discuss minimum standards for construction and wiring of houses which will produce maximum benefits from the use of electric heat.

"For many years, the general public has believed that electric heat is too expensive," Ricketts said. "This is definitely not the case," he asserted, as he cited numerous instances where consumers in the South Alabama area who are using electric heat have kept a detailed record of their

heating costs, and have found them to be "very moderate."

Cost Is Low  
Generally, most well-constructed homes in the South Alabama area can be electrically heated for around \$50 to \$75 per year, Ricketts declared. He also stressed the safety, cleanliness and convenience of electric heat.

Basil Thompson, Covington Electric Co-op Manager, stated that the Cooperative was intensively promoting the application of electric heat among members of the Cooperative. He also reported that studies were under way leading to possible adjustment of power rates for year-round heating and cooling purposes, which would make electric heating even more attractive for Co-op consumers.

Loans Available  
At Troy College  
Dr. C. B. Smith, president of Troy State College, has announced that the college is participating in the National Defense Student Loan program.

According to L. C. Stahler, business manager, funds are now available to students who wish to borrow. Both entering freshmen and students already in college may secure loans.

Drive Slow and Live Longer

BY BOB COLLINS

This season's cotton support price will be 30.40 cents for Choice "B" and 24.70 cents for Choice "B" and Middling 7/8-inch... based on formula used in the past some pretty smart cotton men predict the difference between Middling 7/8-inch and Middling 1-inch will be 30 points... if this is the case, the difference between Middling 1-inch Choice "A" cotton would have a support price at 34.40 cents and the same grade and staple in "B" would have a support price at 28.40 cents... you now have a much rounder basis to decide whether or not to take the "A" or "B" Choice... if you choose "B" you must notify your county committee in writing by March 15.

Near Correct  
Those of you who wrote for the work sheet will note that the prices were only a few points on for Middling 1-inch.

### R for Health

The Wonderful Antibiotics

It is possible that you are alive and healthy today because your doctor prescribed an antibiotic drug. Their discovery and development are, without doubt, one of the greatest medical accomplishments of our time. They have saved untold numbers of lives and millions of dollars in medical bills.

Diseases which today are stopped in a matter of hours or days with an antibiotic drug, once took weeks of medical attention and bed rest. An example is pneumonia. Prior to the antibiotic, this disease usually confined the victim to bed for at least two weeks and with the use of antibiotics and proper care, the pneumonia patient can be up and around in a week. This is only one example.

Other deadly diseases of yesterday have fallen before the antibiotics' scientific power, typhoid, gonorrhea, "blood poisoning" and more than a hundred other human and animal ills.

What is an antibiotic? Non-technically, it is a chemical substance, produced by a fermentation process from living organisms, which will attack many infectious organisms. It is a battle of microbes against microbes. The organisms which produce the antibiotic substance are found plentifully in the soil.

The first antibiotic, known later as penicillin, was first observed by Sir Alexander Fleming in his laboratory in 1929. But it was not until ten years later that Dr. Howard Florey, looking for substances more useful than the new sulfa drugs, conducted studies which proved the importance of Dr. Fleming's earlier discovery... and resulted in penicillin.

The dramatic story of how penicillin was brought from England to the United States at the beginning of World War II for commercial production is well known.

### D. O. CLUB HAS ORATORICAL SKIT CONTEST

Thursday, March 5, the Elba Diversified Occupations Club was host to the area oratorical skit contest of the South-east district. D. O. clubs from the following schools were represented: Enterprise, Geneva, Opp, Andalusia, Georgiana, Lullier, Greenville, Elba, Third place, Sharon Frazier, Opp. In the oratorical contest the winners were: First place, Janice Harris, Geneva. Second place, Rex Bryan, Elba. Third place, Sharon Frazier, Opp. In the skit contest Lullier took first place followed by Opp, second place and Elba third.

The first place winners of these contests will enter the district elimination contest to be held in Auburn March 19. Friday night, Mar. 5, the Elba D. O. Club held its Employer-Employee banquet at Padgett's Restaurant. The guests attending were the D. O. students with their employers and school officials.

Mary Foley welcomed the guests and made a report of

D. O. activity and progress thus far this year. Rex Bryan made the address on "Vocational Adjustment" which won him second place in the area oratorical contest. A skit "Take A Letter" was presented by Dan Morrow, Doris Weeks, Catherine Hudson, Brenda Smith, Patricia Kelley, Mary Foley and Mary Jane Hodge. A delicious chicken dinner was served to the forty-two attending.

The D. O. club is looking forward to attending the district D. O. meeting and contest held in Auburn March 19.

### Elba Brothers Meet In Mediterranean

With the Sixties Fleet in the Mediterranean, "Operation Big Deal" from a chair hanging 45 feet above the sea, Wendell E. LeVane, SS, USN, saw his brother Donald H. Devane, BM2, USN, for the first time in 35 years, as the U.S.S. Massachusetts (AO-134) refueled the Sixth Fleet flagship, USS Des Moines (CA-134), February 24.

When Wendell received word that Donald was serving aboard the Massachusetts, he asked permission from his Commanding Officer to visit him via helicopter at sea.

While oil was pumped from ship to ship, the two South Alabama boys took a quick thirty minutes to go over "old times."

In 1924 they had parted. Donald was to serve aboard the USS Vulcan (AR-5) home ported in Norfolk, Va. Last month he was transferred to the Sixth Fleet Oiler, Wendell had duty on the USS Salem (CA-139), flagship of the Sixth Fleet, home ported in Villefranche, France. The Salem went home in 1958 and he was transferred to the new flagship, the Des Moines.

The fueling completed, Wendell looked back again from his chair in the sky knowing that this would be one of many meetings in the future.

Sons of Mrs. Bessie P. Devane (father deceased) of Rt. 5, Elba, they both attended Elba High School. Wendell is married to the former Miss Orla Siro of 14 Rue Maraldi, Nice, France, and entered the Navy in 1952. Donald is single and began his Navy career in 1944.

A soil test is the best and most practical way to determine the right kind and amount of fertilizer to use.

### From Our Early Files

22 YEARS AGO

Funeral services for Leo Lynwood Harper, who passed away Wednesday at his home in Alexandria, Va., were held at the Elba Baptist Church with Rev. J. A. Timmerman officiating.

He was the oldest son of Mr. and Mrs. Ernest L. Harper of Elba, and was born and raised in Elba. He attended the Elba schools and finished his high school education at Camp Hill. Soon after graduation, he enlisted in the U. S. Navy, where he spent 18 and 1-2 years prior to his death.

Surviving are his wife, Mrs. Lulla Mae Harper, his parents, four brothers, Emmett, Jake, Frank and Buck; three sisters, Mrs. Alex Mays, Mrs. H. N. Shaw, and Mrs. J. J. Cottrell.

Mrs. L. E. Hay of Donaldsonville, Ga., was the guest of the week.

T. L. Maddox, well known young farmer who lives northeast of Elba, sent to the Clipper last Saturday, some of the largest eggs seen in this area in some time. The six eggs sent were weighed at one pound and three ounces, about twice the size of ordinary eggs. The eggs came from Mr. Maddox's flock of sixty white leghorns.

County Agent Hugh D. Sexton and Asst. Fred L. Donaldson are spending Wednesday and Thursday of this week in Auburn, where they are obtaining provisions of the new Bankhead-Jones Tenant Act which was recently passed.

Improper care of farm machinery costs Alabama farmers thousands of dollars each year.

Properly operated, the poultry industry is one of the most efficient of all farm enterprises.
